  - ii. Next steps
    - 1. Share standards and course content for coaching endorsement (May 9<sup>th</sup> working meeting)
    - 2. Possible RFP for vendor to create Foundations of Mathematics Assessment
  - iii. Questions/Comments
    - 1. Reminder to support K-5 teachers as they implement another assessment and to help them use the data in meaningful ways.
    - 2. Recommendation to consider AMTE's draft [Guidelines for Preparing and Supporting Elementary Mathematics Specialists](#).
    - 3. Clarified that the four courses for the mathematics specialist could be an endorsement or embedded into a master's degree.
    - 4. Voiced concern that AMTE standards were not utilized during the K-5 standards development and that representation from AMTEA is missing on the post-secondary task force.
    - 5. HBCUs would also like to be included in this committee work.
    - 6. Noted math department faculty were not included in post-secondary team due to law.
    - 7. Voiced curiosity in seeing the standards and thinking about how to enact those within our own specific context/institution.
    - 8. Need to collaborate with community colleges.
    - 9. Concerns regarding timeline and what students entering colleges/programs will need and time to enact the changes.
    - 10. An invitation will be sent out to the AMTEA email list for interested members who would like to join committee meetings as a guest.
- b. Taunya Nesin, Ed.D., Director of STEM Networking and Partnerships (WestEd) and Dr. Kaitlyn May from Accelerate Learning
  - i. Math Nation study
